

C. C. LEATHERS INC.

Five generations of experience providing high quality leathers to interior designers and architects around the world.

C. C. Leathers Inc. is dedicated to providing the highest quality leathers and products, helping designers and architects create extraordinary interiors.

Our leathers are tanned and finished in a wide range of styles and thousands of colors—pure buttery-smooth aniline, pebble grain, glazed, salvaged, sueded, distressed, embossed, antiqued, chrome-free environmentally friendly, vegetable tanned, metallic, hand-rubbed, hair-on and more—leathers that may be specified for a wide range of applications from upholstery to architecture to one-of-a-kind products. Our European hides are in the top 5% of premium hides available in the world: all from larger dairy cattle that are brand-free and provide exceptionally large, clean hides.

Our European leathers come from tanneries which employ responsible environmental policies and use the best available production techniques. We offer chrome-free leathers that are 100% biodegradable and environmentally friendly.

Whatever your project or budget, we can satisfy your leather needs for upholstery, wall-paneling, floor coverings and furniture, as well as fire-rated and other specialty leathers, including automotive, aircraft and marine leathers. We provide A + D libraries with a free product binder and samples upon request. But we offer much more than the binder contains—we can source leathers from around the world, including custom colors and finishes. The only limits are your imagination and budget!

In addition to C. C. Leathers' outstanding leather selection, our other divisions offer innovative products and services:

C C ARCHITECTURAL expands the use of leather into unique vertical applications and specialty hardware. **LeatherTile** is a luxurious thick leather for floors, walls and furniture, available in custom colors, shapes and sizes. Our award-winning **LeatherLok** provides large-scale woven leather for focus walls, doors, headboards and furniture. **LeatherPulls** offers a selection of high quality door pulls that are leather-wrapped and stitched—custom, elegant handles that are a cut above.

C C ACCESSORIES provides leather accessories for the home and office. Custom leather desk + boardroom mats, coasters and portfolios, as well as embossing and table top inlay and tooling.

C C HOSPITALITY offers leather placemats, menu + wine covers, server aprons... genuine leather items that make the statement of quality and prestige.

C C LIMITED EDITION extends our reach into one-of-a-kind and exotic materials such as leather floorcoverings, a wide selection of exquisite and unusual leathers, and custom-built products to your exact specifications.
