

C. C. LEATHERS INC.

THE CANADIAN COLLECTION

A new line of leather portfolios + desk accessories featuring our STRATA LEATHERTILE

Inspired by the iconic Group of Seven paintings of birch trees, **The Canadian Collection** uses a unique leather to create a stunning array of portfolios, desk and board-room mats, mousepads, coasters and accessories.

Made using our Strata LeatherTile: a leather guaranteed to be tanned exclusively with vegetable extracts and without using any harmful chemical substances. It's 100% biodegradable – perfect for clients who are looking for environmentally-friendly or “green” products.

This is an aniline-dyed, 100% full grain leather with a sealed, polished and waxed top coat. This leather has incredible color depth and intensity that gives it a rich and lustrous look. It is randomly scored by hand and a darker stain is rubbed into the scores to give a very unique design to this beautiful leather. All items feature a stitched edge detail and are backed with a silky smooth natural lambskin.

Each item is individually hand-fabricated locally by our artisans – **Made in Canada** - and available in 4 colours of leather: Canyon (shown), Sable Wine, and Coal.

Also available in smooth leather. Maple Leaf may be replaced with corporate logos in any color.

This is a one-of-a-kind item that is ideal for personal or corporate gift-giving.
